

Zakaria Aourir

Front-End Engineer | UX-Driven Developer

Paris, France | zakariaaourir.com | LinkedIn | GitHub | zakaria1997aourir@gmail.com

Front-End Engineer with 5 years of experience delivering Angular and React apps with a strong UX focus. Skilled in user research, prototyping, and building scalable interfaces across sectors like infrastructure, manufacturing, and enterprise software. Seeking roles that blend engineering with user-centered design.

PROFESSIONAL EXPERIENCE

Sixense | Front-End Developer & UX Researcher | Paris, France

Jan 2024 - Present

- Developed features in Angular within a product team focused on infrastructure monitoring.
- Led UX research initiative on the reporting module: interviews, pain point analysis & insights.
- Facilitated co-design workshops to align dev, product, and design teams.

Results: Improved UX led to fewer support tickets and faster onboarding.

Dassault Systèmes | Front-End Consultant | Paris, France

Jan 2023 - Dec 2023

- Delivered scalable React features across multiple projects.
- Set up robust Jest-based testing architecture.
- Contributed to internal data science tools and UX quality audits.

Result: Enhanced stability, reliability, and quality culture in front-end teams.

ITP-INTERPIPE | Angular Developer & UX Lead | Paris, France

Mar 2022 - Dec 2022

- Conducted field user interviews and workflow analysis.
- Designed UX/UI: wireframes, prototypes, design system aligned with real-world needs.
- Built and deployed a custom Angular app (Nginx); trained users and iterated post-launch.

Result: High adoption rate, improved traceability, and reduced manufacturing errors.
